SYNEX INTERNATIONAL INC. UPDATE ON MCKELVIE CREEK HYDRO PROJECT
--

Synex International Inc. (the “Company”) announces that Synex Energy Resources Ltd. (“Synex”), a wholly owned subsidiary of the Company, has received confirmation from BC Hydro that the 5.3MW McKelvie Creek Hydro Project (the “Project”) has been registered within BC Hydro’s Standing Offer Program, Target Volume Management System for a Target Commercial Operation Date (“Target COD”) of 2018. The confirmation by BC Hydro notes that the Target COD does not guarantee acceptance of the application or an offer of an Electricity Purchase Agreement. Synex anticipates that it will promptly respond to matters raised by BC Hydro.

The Project is to be located in mid-Vancouver Island, nearby to the existing 3.8MW Mears Plant, 2.8MW Cypress Plant and 4.3MW Barr Plant as well as the 4.3 Newcastle Creek Hydro Project (the “Project”), which was registered within BC Hydro’s Standing Offer Program, Target Management System for a Target COD of 2018 in early March 2016.

Synex is an experienced run of river hydroelectric developer and consultant located in Vancouver, British Columbia. The Company wholly owns or has interests in 12 MW of operating facilities and has applications for water licences and land tenure on over 55 potential hydroelectric sites which are either in various stages of development or are being held for disposition.
